

Haier Biomedical UK

Customer Testimonial – Intertek Melbourne

Haier Biomedical recently supplied several models of its ATEX rated sparkfree units to Intertek Melbourne

Intertek were looking for fridges for the storage of pharmaceutical samples, standards and reagents which maybe dissolved in flammable solvents , which therefore needed to be sparkfree.

Intertek Melbourne are a GMP pharmaceutical analysis and formulation contract service provider to the pharmaceutical, biotech and healthcare industries. The laboratory is inspected and approved by the UK Medicines & Healthcare Products Regulatory Agency (MHRA) for GMP compliance, hence, any refrigeration units must be validated to meet their strict storage requirements.

The units underwent independent validation on site and results shows the temperature uniformity within the units to be between 1.0°C and 1.2°C.

Customer needs:

- ✓ Sparkfree
- ✓ Excellent temperature uniformity
- ✓ 5 Year warranty
- ✓ Competitive £££

“The fridges will be used to store pharmaceutical samples, standards and reagents which may be dissolved in flammable solvents.

We have purchased Haier products previously and have been impressed with the uniformity and temperature stability of these products. This coupled with the competitive price lead us to purchase from Haier Biomedical again.”

Anthony Cayford
Equipment Coordinator
